PROFESSIONAL SUMMARY

Results-driven React Developer with 3+ years of experience building scalable, high-performance web applications for enterprise clients in the insurance and CRM domains. Demonstrated expertise in React.js, Redux, REST API integration, and responsive UI/UX design. Proven ability to deliver end-to-end frontend solutions—from requirement analysis to production deployment—while collaborating in Agile/Scrum environments. Passionate about clean, maintainable code and continuous performance optimisation.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, React Hooks, Redux, Tailwind CSS, Bootstrap

Backend: Node.js

API & Integration: REST APIs, Axios, JWT Authentication, .NET Core Integration

Tools: Git, GitHub, Postman, VS Code, Figma

Familiar With: TypeScript, Jest (Unit Testing), Web Security Best Practices

WORK EXPERIENCE

Anga Information Technology • Coimbatore

Jan 2023 – Present

React Developer

- Engineered modular, reusable React components using React Hooks and Redux, improving application scalability and reducing component duplication by ~30%.
- Delivered seamless frontend–backend integration by consuming REST APIs and implementing secure JWT authentication across multiple enterprise portals.
- Collaborated in Agile/Scrum teams, participating in sprint planning, daily stand-ups, and code reviews, accelerating release cycles by 20%.
- Implemented Git-based branching strategies (feature branches, pull requests) to maintain code quality and facilitate team collaboration.
- Optimised React rendering performance through memorisation (React. Memo, use Memo, use Callback), improving page load times on data-heavy dashboards.

KEY PROJECTS — WALAA INSURANCE

CRM Enhancements | React.js, Redux, REST APIs, JWT

- Developed modules for case closure, email requests, and customer surveys, streamlining customer communication workflows and reducing average handling time.

Globemed Monitor | React.js, Redux, .NET Core APIs

- Implemented role-based authentication and bulk data processing features, improving system reliability and ensuring secure multi-user operations.

Facultative Reinsurance Portal | React.js, .NET Core APIs

- Architected a role-based reinsurance workflow application integrated with .NET Core APIs, enabling structured risk-assessment and approval processes.

Life Broker Portal | React.js, Bootstrap, REST APIs

- Designed and developed a full-featured broker management system from scratch, delivering the complete UI layer and API integration.

Online Claim System | *React.js, Redux, REST APIs*

- Built a scalable, end-to-end claim management platform that reduced manual processing effort and improved claim turnaround time.

Workshop Agency & Admin Portals | *React.js, Tailwind CSS*

- Redesigned UI components and enhanced system functionality across two portals, significantly improving usability and user satisfaction scores.

EKYC Data Entry System | *React.js, REST APIs*

- Developed a high-performance, responsive UI that accelerated data-entry operations and reduced operator error rates.

Medical Reimbursement Portal | *React.js, Excel Integration*

- Implemented Excel upload and bulk-update features, enabling efficient processing of large reimbursement datasets with validation feedback.

EKYC Approval Module | *React.js, Redux*

- Built a multi-step admin verification workflow with role-based access control, ensuring structured and auditable approval processes.

OTHER PROJECTS

Bus Tag (2023) | *React.js, Node.js, Google Maps API*

- Developed a real-time bus tracking system with live route mapping and backend API integration for public transport visibility.

Mech Place (2023) | *React.js, REST APIs, Geolocation*

- Built a location-based vehicle service platform that connects users with nearby mechanics, improving service accessibility.

Project Management System (2023–2024) | *React.js, Node.js, JWT*

- Delivered a multi-role project management platform with authentication, task assignment, and live progress tracking.

Green Apple Website (2023–2024) | *React.js, API Integration*

- Enhanced a responsive business website with API-integrated contact forms and performance optimisations, increasing user engagement.

EDUCATION

Bharathiar University • Coimbatore

2021 – 2023

Master of Science in Information Technology

Sri Sangara Bhagavathi Arts & Science College • Tuticorin

2018 – 2021

Bachelor of Science in Information Technology

CORE STRENGTHS

- Strong UI/UX development skills with a focus on responsive, accessible design
- Proven track record in enterprise-level, production-grade applications
- Clean, maintainable coding practices; consistent adherence to component-driven architecture
- Quick learner with demonstrated adaptability to new frameworks and business domains

Languages: Tamil (Native) | English (Professional)
